---

### OBJECTIVE

Aspiring Full Stack Web Developer with a solid understanding of programming fundamentals and hands-on experience in building responsive web applications using React.js, HTML5, CSS3, Java, Python, and JavaScript. Proven ability to apply logical reasoning and problem-solving skills, demonstrated through projects like a comprehensive personal portfolio, a healthcare simulation platform, and a Design Declares clone. Eager to contribute to a dynamic development team and grow as a software professional.

---

### SKILLS

- **Languages:** Java, Python, JavaScript
  - **Frontend Technologies:** React JS, HTML5, CSS3, Tailwind CSS, Material UI,
  - **DataBase:** MySQL
  - **Version Control:** Git, GitHub
  - **Design Tools:** Canva,
- 

### PERSONAL PROJECTS

#### Personal Portfolio Website

[link](#)

- Developed a comprehensive personal portfolio website showcasing various projects and skills.
- Designed for a clean, responsive user experience across different devices.
- Served as a central hub for demonstrating technical abilities and design sensibilities.
- Deployed on Vercel for global accessibility.

#### Design Declares Clone

[link](#)

- Built a fully responsive, pixel-perfect clone of the Design Declares website using React.js and Tailwind CSS.
- Implemented scroll-triggered animations, sticky bottom navigation, and smooth user interactions.
- Deployed on Vercel.

#### Health Care Dashboard

[link](#)

- Developed a React-based healthcare simulation platform as part of the patient project.
- Enabled interactive training for mental health professionals through AI-powered virtual patient conversations.
- Deployed using Vercel for seamless accessibility.

#### Cubic Technologies Website

[link](#)

- Developed a static business portfolio website using HTML, CSS, and JavaScript.
- Showcased Cubic Technologies' services and branding.
- Designed for responsiveness and ease of navigation.
- Deployed on Vercel.
